-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. The information disclosure statement (IDS) submitted on 11/28/2001 is acknowledged and considered.

Election/Restrictions

2. Applicant's election without traverse of Species II (claims 1, 3, 6, 8-11) in Paper filed on 3/15/04 is acknowledged.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1, 3, 6 and 8-11 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 10 and 12 of U.S. Patent No. US 6306154 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the application are anticipated by claims 10 and 12 of the Patent. In regard to claim 9-11 the subject

Art Unit: 3731

matter as claimed are the obvious variation of subject matter as claimed in claim 10 of the patent.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1, 3, 6, 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Pittman (3,483,859).

In regard to claims 1 and 3, Pittman discloses a device comprising a shaft (11), a hemostatic shroud (26, examiner considers limitation "hemostatic shroud" as a hemostatic cover or coat) disposed around a balloon (21) and a central tube (12), a soft tip as claimed (including section 19 and 17).

In regard to claim 6, wherein the balloon is inherently inelastic.

In regard to claims 8 and 9, hemostatic shroud/cover comprises a fabric of a gel-form (col. 3, lines 25-35 and col. 4, lines 1-10).

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3731

8. Claims 10 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pittman '859. Pittman disclose an hemostatic shroud comprising of hemostatic agent fibers knitted or woven together (col. 3, lines 25-35). Although, Pittman does not disclose reinforcing fibers and the reinforcing fibers being polyester or nylon, a hemostatic fabric with reinforcing fibers being polyester or nylon is well known in the art. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the hemostatic cover of Pittman with a hemostatic cover including reinforcing fibers as claimed wherein so doing would amount to mere substitution of one cover for an other within the same art that would perform equally well in Pittman's device.
